SONY

ICF-CD7000WHT

AM/FM/MP3/CD Clock Radio

Features

- FM/AM Digital Tuner Enjoy the most popular AM and FM radio stations.
- Dual Alarm Gives you 2 separate wake-up times with individual wake-up settings and you can choose what you want to wake up to, a CD, the radio or a buzzer
- ATS (Automatic Time Set) The correct EST (Eastern Standard Time) has been preset at the factory so just plug in your radio and adjust the time zone if necessary. In the case of a power interruption, the pre-installed Lithium battery maintains the correct time so when the power returns you don't have to re-set the clock.
- ADST (Automatic Daylight Savings Time) When Daylight Savings Time changes take place in the Spring and Fall each year, there is no need to adjust the clock because the built in calendar recognizes the dates and automatically makes the proper time adjustment.
- No Power No Problem Alarm System The pre-installed Lithium battery maintains clock and alarm operation in the event of a blackout or other power failure.
- Triple Time Display Displays the current time, Alarm A and Alarm B on the easy-to-read LCD display.
- MP3 Connectivity with Built-in Audio Cable Experience simple plug-and-play integration with a digital music player or PC.
- 15 Station Presets Set your favorite radio stations, up to 10 FM and 5 AM stations.
- Count-down Time Nap Button Take a short nap and wake up to the radio or buzzer without changing your alarm settings. You can select your favorite nap time of 10, 20, 30, 60 or 90 minutes.
- CD-R/CD-RW Playback[1] Plays CD's burned in either a PC or home recording deck.
- LCD Brightness Control Choose between 3 positions: High, Medium or Low (H/M/L), by pressing the snooze button.
- Extendable Snooze Gives you the freedom to choose your snooze time instead of having to settle for the standard time intervals of other alarms. Each press of the snooze button adds an additional 10 minutes to your snooze time, up to a full hour.
- Sleep Timer Fall asleep to the Radio, a CD or a Digital Music Player. You can select how long you want the music to play, choosing between 15, 30, 60 or 90 minutes.
- Illumination Light Adjust the brightess to your taste and environment between 3 settings; High, Low and Off.

Specifications
